                                                                                                                                                                                                                                                                                                                                                                                                                                                 ò
                                                                        /clone="D01019"
/clone="lib="Testis 1"
/clone_lib="Testis 1"
/clone was prepared from human testis of a 27 years old man.
cDNA was prepared using a l5mer oligo dT anchored by two
degenerated bases at its 3'end and containing a NotI site
at its 5'end The cDNA was cloned between EcoRV and NotI
sites of PGEM 52f(+). The 3' end is at the NotI site. The
ECORV site is lost during the cloning procedure. cDNA
corresponding to abundant species were eliminated from
this library. "
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     /dev_stage="Adult"
